Skilled and Learned Computer Science and Engineering Undergrad. Love Exploring New Technologies and Solving Real World Problems. Skillful in Python, Algorithms, Linux Administration, Windows Server and Cloud Computing.

## EDUCATION

### Secondary School

Mount Abu Public School

03/2015 - 03/2017

10.0 CGPA

#### Courses

- English, French, Mathematics, Science, Social Science, IT

### Senior Secondary School

Mount Abu Public School

03/2017 - 04/2019

86%

#### Courses

- English, Mathematics, Physics, Chemistry, Physical Education

### B.Tech Computer Science Engineering

Manav Rachna International Institute of Research and Studies

07/2019 - 06/2023

83.2%

#### Courses

- Programming, Databases, Algorithms, Networks, German, Game Programming, OOPS, Machine Learning

## WORK EXPERIENCE

### Analyst Intern

Capgemini India

02/2023 - 05/2023

Pune, Maharashtra, India

#### Tasks

- Worked on CyberArk Password Access Management and Server Monitoring. Underwent training in Linux (Red Hat Enterprise Linux 6), Windows Server (Windows Server 2016) and SQL Server.

## SKILLS

CyberArk Password Access Management

Windows Server

Red Hat Linux

Python

C++

Algorithms

Machine Learning

Google Cloud Platform

Linux

Cloud Computing

## PROJECTS

### ARRemote App (08/2022 - 12/2022)

- ARRemote is an app that has been built to control home appliances like light bulb, ceiling fan etc using the technology of Augmented Reality (AR). Featured in **2023 5th International Conference on Smart Systems and Inventive Technology (ICSSIT)**

### Prescribing Drugs Using Sentiment Analysis (11/2021)

- Sentiment Analysis on User Reviews to suggest the most suitable drug for a given disease. Used a sample dataset from Kaggle

### DevTionary Web App (05/2021)
